Purpose

The purpose of this document is to set out the various categories of information that the Federation routinely publishes and makes available.

Scope

This document fulfils the requirements set out by the Information Commissioner's Office (ICO) with regard to the minimum content of school publication schemes.

1.0 Introduction

The Freedom of Information Act 2000 (FOIA) gives you a general right of access to all types of recorded information held by public authorities, including schools. The legislation is designed to promote greater openness and transparency throughout the public sector.

The Federation is a public authority for the purposes of FOIA and as such is required to adopt the model publication scheme for schools approved by the ICO.

The Federation is committed to ensuring that it provides access to information in accordance with its obligations under the FOIA, associated regulations and professional guidelines. The Federation will use all appropriate and necessary means at its disposal to comply with the legislation and associated guidance.

2.0 What is in the Publication Scheme

The model scheme requires the Federation, as a public authority, to “produce and publish the method by which the specific information will be available so that it can be easily identified and accessed by members of the public”.

This Publication Scheme therefore sets out:

- the categories of information which we publish or intend to publish.
- the manner in which the information will be published.
- whether the information is available either free of charge or for a fee.

The ICO expects the Federation to make the information detailed in this document available within the Publication Scheme unless:

- we do not hold the information.
- the information is exempt under one of the FOIA exemptions or Environmental Information Regulations 2004 (EIR) exceptions, or its release is prohibited under another statute.
- the information is readily and publicly available from an external website; such information may have been provided by the Federation or on its behalf. If that is the case we will provide a direct link to the information.
- the information is archived, out of date, or otherwise inaccessible.
- it would be impractical or resource intensive to prepare the material for routine release.

We will also publish any datasets held that have been requested, together with any updated versions we hold, unless we are satisfied that it is not appropriate to do so. A dataset is a collection of information that has been obtained or requested for the purpose of providing the Federation with information for it to provide a service or carry out a function. So far as reasonably practicable, we must publish a dataset in an electronic form that is capable of reuse. If the dataset or any part of it is a relevant copyright work and the Federation is the only owner, we must make it available for re-use under the terms of a specified licence. Datasets in which the Crown owns the copyright or the database rights are not relevant copyright works. The Datasets Code of Practice recommends that public authorities make datasets available for re-use under the Open Government Licence. The term “dataset” is further defined in Section 11 (5) of the FOIA. The terms “relevant copyright work” and “specified licence” are defined in Section 19 (8) of that Act.

The Publication Scheme covers information which is already published or information which will be published in the future. We endeavour to make as much information as possible available online on the Federation’s website www.lustonshobdonfederation.org.uk, or if it is held by another public body, we will provide you with the details of where to obtain this.

Information on our website is available to you to download and print off, or is available in paper form from the Federation on request - there may be a charge for paper copies (see Annex A).

The categories of information, set out below, provide details of where the information is available. If any of the information is not available online, the Publication Scheme will explain how it can be accessed. We will continue to develop this Publication Scheme to increase the amount of information that can be accessed through it.

Further information relating to the legislative requirements of the Publication Scheme can be found at <https://ico.org.uk/>.

3.0 How to Request Information

If you require a paper version of any of the documents listed in the Publication Scheme, please contact the school as follows:
