

## Times Tables Rockstars – website and app to support learning times tables and multiplication

### What's the website about?

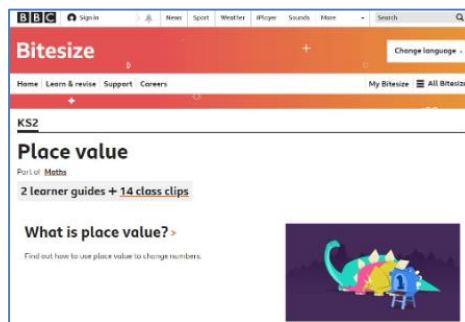

One of our favourites, and because of this we have subscribed as a school. This means children from Year 4 up have a login in. Times tables are the absolute bedrock of maths learning; mastering them can have a direct impact on how well children get to grips with the more complex maths further up the curriculum, so it's worth nailing them early on.

Moreover, from 2021 all Year 4 pupils will be required to sit a short Multiplication and Times Tables Test/Check as part of the new government assessment regime. Worth getting a head start now!

### Handy to know

In Times Tables Rockstars, you earn rewards through mastery which can be 'spent' buying accessories for your online avatar. This is often the most popular part, of the whole process! Times Tables Rock Stars can be found [here](#).

## BBC Bitesize – maths homework help online for children of all ages

### What's the website about?

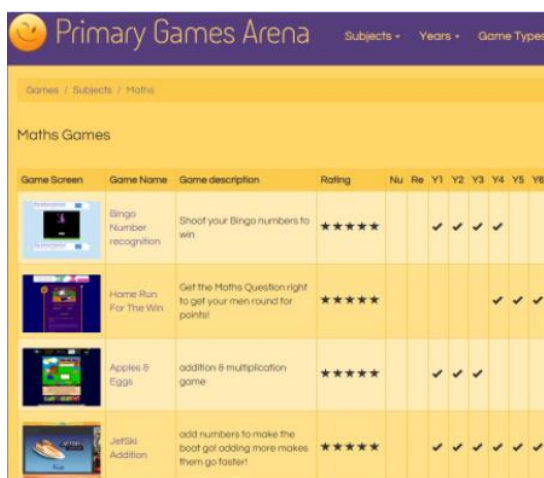

BBC Bitesize is excellent when it comes to getting help for your child with their maths homework.

### Handy to know

All topics on the Bitesize website are organised by year group and curriculum, so you'll be secure in the knowledge that your child will be working at the right level. Short videos make the learning enjoyable and accessible, and the sheer amount of information on offer on this website should make it the first stop for maths homework help!

Take a look at the BBC Bitesize website [here](#).

## Primary Games Arena – learn maths through games online!

Game Screen	Game Name	Game description	Rating	Nu	Re	Y1	Y2	Y3	Y4	Y5	Y6
	Bingo Number recognition	Shoot your Bingo numbers to win	★★★★★			✓	✓	✓			
	Home Run For The Win	Get the Maths Question right to get your men round for points!	★★★★★						✓	✓	✓
	Apples & Eggs	addition & multiplication game	★★★★★			✓	✓	✓			
	Jet Ski Addition	add numbers to make the boat go! adding more makes them go faster!	★★★★★			✓	✓	✓	✓	✓	✓

### What's the website about?

It is a free website that encourages children to play online maths games linked to their homework. What's more, children can play against other students. Forget Fortnite, these games will sharpen their maths skills without them even noticing!

### Handy to know

Primary Games Arena breaks down the games on the site by both age (school year group) and by topic. This gives you as a parent the ability to pair up the maths game with whatever topic your child is learning in school. Head over to Primary Maths Arena by clicking [here](#).

### Hit the Button – website and app to practise times tables and number bonds homework

Hit the Button is an interactive maths game with quick-fire questions on:

- Number bonds
- Times tables
- Doubling and halving
- Multiples
- Division facts
- Square numbers

The games work against the clock so are great for developing your child's mental maths skills at primary school.

## Handy to know

It also has a dedicated section on parental tips and tricks for the best ways to support your child throughout their learning. Hit the Button can be found [here](#).

## Math is Fun – A simple but very useful free maths homework help website

## What's the website about?

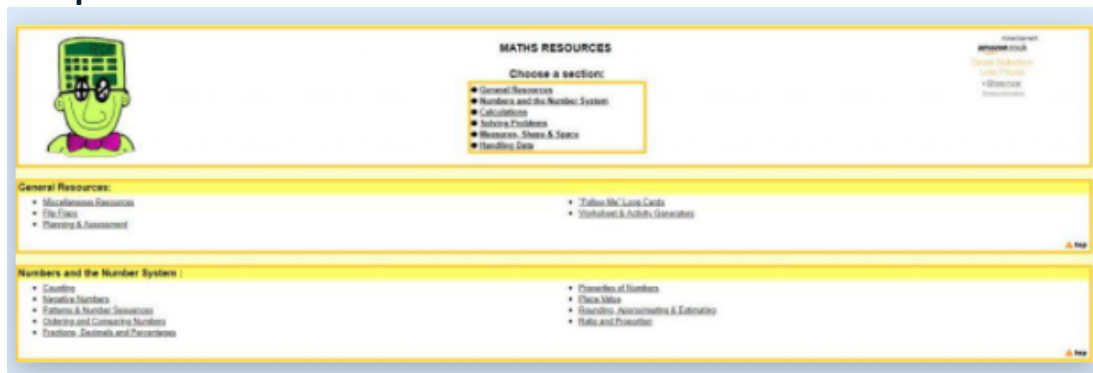

It's topic based rather than year based, but it is a good site if your child needs to revise a particular topic because each one is written in a clear and precise style.

## Handy to know

Don't be put off by the US spelling, as this site will reinforce learning for the UK curriculum. As well as being a great place for your child to get free maths homework help online, Math is Fun also gives you the chance to see how well your child has digested the material they have learned through a number of questions on each topic. There's also a section of the site dedicated to downloadable worksheets.

Check out the Math is Fun site [here](#)!

## Primary Resources – Everything you'll need for maths homework help all in one place

### What's the website about?

Primary Resources provides free maths worksheets, perfect for free maths homework help.

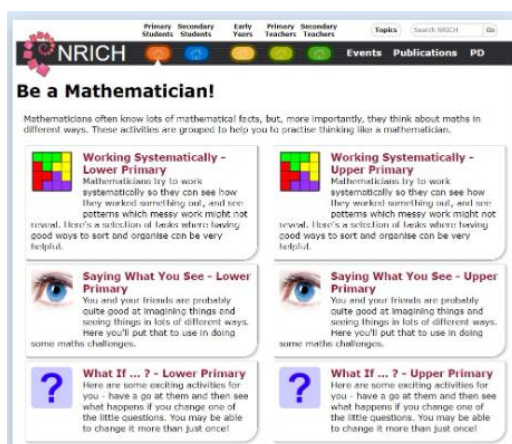

It's a long standing favourite website among teachers but there's no reason why parents can't use the exercises and maths practice activities too.

### Handy to know

Worksheets are sorted by topics and level, so you can be confident that whatever topic from the primary maths national curriculum for KS1 or KS2 your child practises with you in the evening can be applied in the classroom the next day.

Check out the [Primary Resources site](https://www.primaryresources.co.uk/).

## NRICH – When the maths homework requires some support on problem solving!

### What's the website about?

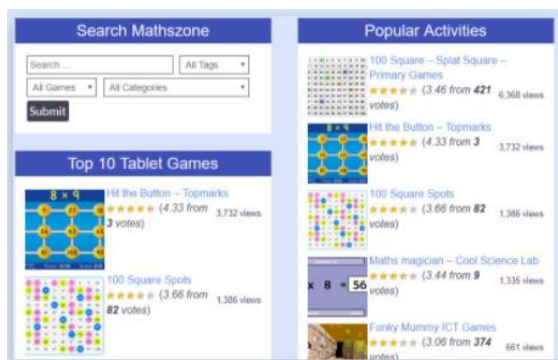

NRICH is a free maths site born from a Cambridge Maths Project to encourages children to think like mathematicians, and generally develop curiosity about the world around them. It was originally founded by a group of teachers and provides free maths activities for all ages and abilities – secondary as well as primary. There's a particular focus on problem solving and reasoning, key principles of the new national curriculum for KS1 and KS2.

### Handy to know

NRICH is a great site for challenging high achievers. Thanks to the breadth of topics and tasks on there, you will be able to really challenge your child whilst ensuring that they can get the right level of maths help online.

The NRICH website can be found [here](#).

## Maths Zone – The ultimate site for free maths homework help with links to lots of other websites

### What's the website about?

Maths Zone describes itself as 'cool learning games', and it's just that.

Need some help with frustrating fractions homework? There's a free maths game for that on Maths Zone. Place value proving problematic? There's a free maths app for that too....

Absolutely jam-packed with fun ways to learn more about maths, this site is ideal for children that like task-based learning and are motivated by games.

### Handy to know

Each game starts with a short video to show how it's played. Maths Zone can be found [here](#).

# Oxford Owls

The screenshot shows the Oxford Owl website interface. At the top, the logo 'OxfordOWL' is followed by the tagline 'Help your child learn'. Navigation links include 'Home', 'Reading', 'English', 'Maths', 'At school', 'Kids' activities' (highlighted in pink), 'Bookshop', and 'Blog'. A search icon is also present. Below the navigation is a 'Browse by age:' section with buttons for age groups: 3-4, 4-5, 5-6, 6-7, 7-9, and 9-11. A sub-header reads: 'Have fun practising your maths skills with our games, activity sheets, and videos.' Three main content cards are displayed: 1. 'Online maths activities' with a photo of a child and text: 'Play our fun maths games online, suitable for children throughout primary school.' with a link 'Browse games and activities'. 2. 'Maths activity sheets' with a photo of a child writing and text: 'Print out and fill in our selection of free maths activity sheets.' with a link 'Browse activity sheets'. 3. 'Maths videos' with an illustration of children and text: 'Find maths ideas explained and top tips for practising maths skills on our YouTube channel.' with a link 'Browse maths videos'.

## What's the website about?

Want to practice skills or do some extra maths at home. Oxford Owls provide quality on-line activities and worksheets to use. They are organised by age, topic and year group so that you can be sure that the activities are suitable for your child and match the current curriculum.

## Handy to know

Videos from the Oxford Owl YouTube channel are there to help too. Oxford Owls can be found [here](#).
